Accounting Solutions for Contractors

# BikeZone™

## Requirement Identified

Danbro are specialist accountants for contractors and were recently voted 'Best Accountancy Firm' by Contractor UK.

When they moved into new offices in Blackpool, a requirement was identified for a shelter to provide a secure parking area for staff bicycles.

## Solution

Emma Hollindale at Danbro contacted Glasdon to discuss the range of cycle shelters available and arrange for a site survey to be undertaken by Glasdon.

The new BikeZone shelter, with its dynamic, contemporary styling, was agreed as the ideal solution to complement the modern architecture of the new business park.

## Resulting Benefits

The BikeZone shelter has proved to be the perfect choice for Danbro with many added benefits:

- **Unique and contemporary appearance with minimal routine maintenance and a long life span.**
- **Manufactured in Durapol® material, which is self-coloured and will not chip or rust.**
- **Wind tunnel tested to ensure it can cope with extreme coastal weather.**
- **Delivered to site in fully assembled form to minimise disruption during installation.**
- **BikeZone is manufactured as a one piece moulding that can be interlocked side by side to allow for future expansion of the cycle parking facility.**
- **BikeZone can be easily relocated if required and is also 100% recyclable at the end of its working life.**

We are grateful to Danbro for the kind help given in the production of this Case Study.

## What the customer says...

*“As our organisation continues to grow, it is important for us to actively seek new ways of reducing the impact that growth has on the environment around us. The introduction of our stylish, new BikeZone Shelter has provided our employees with a real alternative method of work travel that not only promotes a healthier lifestyle but is much kinder to our planet!”*
