Design Process

From ideas ... to real world solutions

New product development has been a defining element throughout our history.

The nature of our products is such that they must be designed to resist the numerous challenges faced within the urban landscape.

We continuously enhance our product range and pave the way in the market by introducing unique products.

Working together with our innovative design team, we want to provide real world solutions, tailored to meeting your needs.

Customer Care FAQs

Shopping should be a breeze - so we do everything we can to make it just that! On the off-chance your question hasn't been answered, please don't hesitate to drop us a message.

What forms of payment do you accept?

We accept Visa, Mastercard, American Express, Discover and JCB through our online shopping cart. If you prefer, we also accept purchase orders.

Do you offer discounts for large orders?

We understand the restraints of budgets which is why, depending on the size and nature of your order, we may be able to apply a discount to large orders. Please contact us for a quote.

How long does it take to dispatch my order?

We will aim to dispatch your order within 48 hours of receipt, subject to inventory availability at our warehouse facility in Sandston, VA.

Orders received for non-standard or personalized items, or where inventory is not available, will be dispatched as quickly as possible. In those situations, our friendly customer service team will be on hand to provide you with an estimated dispatch date.

Can I customize my order?

Absolutely! We've been personalizing our containers for nearly as long as we've been making them. You can change colors, openings and signage and even add your organization's branding on most of our containers.

Find some inspiration on our personalization page or, if you already have an idea in mind, drop us an email and we will whip you up a free CAD illustration of your desired design.

Customer Reviews

As part of Glasdon's commitment to exceptional customer service, we invite customers to complete a Customer Satisfaction review.

We ask customers to rate our performance on a scale of 1-5: how we handled their initial inquiry, delivery performance, product quality, after sales service and overall satisfaction with the process.

Town of Golden Beach

Kellogg's Achieve "Cereal" Recycling Status with Glasdon

With the aim of developing 'quality products for a healthier world' at the heart of their goals, the Kellogg Company is renowned for their delicious, nutritious foods and has long since reached global heights.

With goals in place to help reduce emissions, water and energy use, as well as hosting eco-events sponsored by their 'GoGreen' Team, Kellogg's are constantly looking to minimize their environmental impact and zero in on waste. To help them achieve their goals and become cereal recyclers, Kellogg needed dedicated recycling containers to situate within their offices – and Glasdon provided the solution.

Kellogg selected a mixture of the Nexus® 26G Recycling Containers, and the Nexus® 13G Recycling Bins as their ideal choices for waste collection.

Take cover! Old torpedo factory in Alexandria installs Guardian™ Life Ring Cabinets

The waterfront location of the Center on the banks of the River Potomac certainly adds to the tranquil beauty and elegance of such a surrounding, but it also raises significant safety concerns.

It's easy to see why...

Attracting some 500,000 visitors each year, the Torpedo Factory Art Center has been an Alexandria landmark for more than 40 years – and with such a mass of people in close proximity to the banks of the Potomac, Guardian Life Buoy Housings proved to be a natural fit.

Canyon™ Trash Cans for Dignity Memorial

The Dignity Memorial network is the largest provider of funeral and cemetery services in North America, caring for thousands of families each year.

Maintaining a welcoming, clean and well-kept environment is a necessity for Dignity Memorial, to preserve the peacefulness and tranquility of their cemeteries and memorial parks.

From modern to traditional styling, we supply a wide variety of outdoor trash receptacles which can be adapted to suit any environment. We're proud that Dignity Memorial were able to find the right solution to manage waste within their memorial parks by selecting our Canyon™ Trash Cans.

How To See Our Products

Watch our videos

Subscribe to our YouTube channel.

Meet us at a trade show

We plan to attend trade shows around the United States and details will be posted on our website.

If you are planning to visit our stand to view a specific product, please call us in advance to ensure this product is available to view on the day.

Request to see our products

If you would like to see our products and you are located in the states of Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina or Virginia, or you are located in the District of Columbia, one of our helpful sales representatives will be available to visit you with a selection of products that you can see and touch.

If you would like to meet one of our team, please email us at inquiries@glasdon.com, or contact us by telephone at **1-855-USGLASDON (874-5273)**.

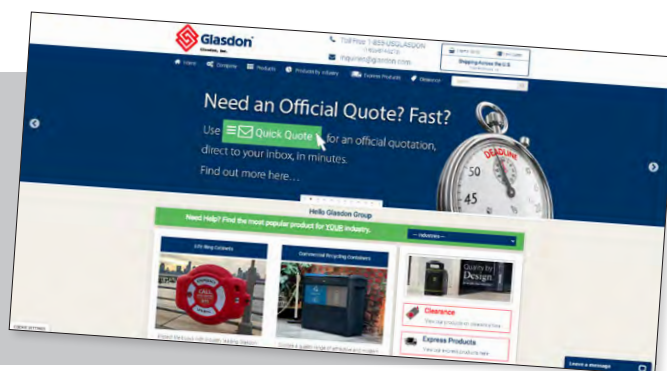

Visit our Richmond Showroom

Our office and warehouse facility, adjacent to Richmond International Airport, has a product demonstration area to allow customers to view our complete product range. If you would like to meet us in Richmond, VA, please email us at inquiries@glasdon.com, or contact us by telephone at **1-855-USGLASDON (874-5273)**.

Personalization & Branding

Personalizing our products is a popular choice among our customers and adds that personal touch to your waste management and recycling program. It is also an effective way of communicating your waste reduction messages and enhancing your facility.

Step 1. Choose from a wide range of products and personalization options including:

Branding, corporate color schemes, bespoke waste streams, campaign messaging and changeable poster kits.

Our experienced sales team will advise you on the personalization options of your chosen product. We can also send you examples of some of our tried and tested visuals for a little inspiration.

Step 2. Selecting Standard Options

Many of our products offer standard decals and poster kits to choose from at the point of ordering. Simply select the option you require from the drop-down menu on our website, or contact our sales office for more information.

Step 3. Looking for Something Different?

If you would like to adapt a standard option by changing decal colors and waste streams, include an element of branding, or create something completely unique, we can help. Our Sales team will be happy to learn more about your project and requirements. We will work with you to achieve the finish you require.

Step 4. Free Visualization Service

Our sales team will then liaise with our in-house graphics team to prepare a visual of the product with your chosen personalization, which you're able to review and make changes to if required.

This is a free service offered to all Glasdon customers.

Step 5. Artwork Approval

We are committed to making sure the end result is exactly right for you. When you are completely happy with the visual and have agreed any of the additional production costs, we will finalize and deliver your personalized order.

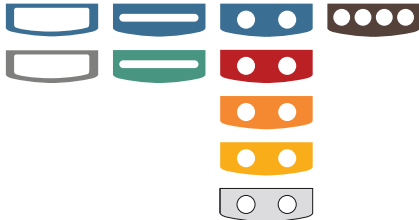

For a unique personalization service with a quality by design finish... talk to us today!

Ensures the bag remains secure and neat within the bin body.

OPTIONAL EXTRAS

Wall Mounting Kit

Permanent and lift-off wall mounting kits are available.

Rear Handle

Enables the operator to lift the entire bin and decant waste for ease of use and speed of emptying.

Graphic Holder Kit

See below for the different waste streams available.

VARIATIONS

C-Thru Nexus® 8G Battery Bin

C-Thru Nexus 8G Battery Bin is a small capacity unit with a clear body, which makes it ideal for collecting batteries. The unit is supplied with a Battery Weight Warning Graphic adhered to both sides of the bin body to indicate when the bin weighs approximately 55lbs, so the operator can empty the unit safely. A handle is also supplied to the back of the bin to help decant the batteries when the bin needs emptying.

MATERIALS

Body & door: Duratec™ material.
Bag holder system: Durapol material.

DIMENSIONS

Capacity: 13 gallons
Height: 27"
Width: 12"
Depth: 20"
Weight: 9lbs

FEATURES

Not like this

Neat like this

Holds 39lbs of Waste Paper

The compact units have a deceptively large 13 gallon capacity. The confidential and paper units have an opening which conceals the contents and allows paper to be stacked as it is placed in the bin. This enables the bin to hold up to 39lbs of waste paper!

The rectangular shape of the bin and sloped opening allows over 3000 sheets of paper to fit neatly into Nexus 13G.

Easy to Empty, Easy to Clean

Nexus 13G has a front-opening, removable door. This allows easy access to the contents and reduces manual handling problems during emptying, as minimal lifting is required. The unit is fitted with a neat bag holder system, which accepts various sizes of bag from 14" to 18" diameter, to cater for different requirements.

OPTIONAL EXTRAS

Pivoting Flap

A pivoting flap is available to hide any unsightly waste and help contain any odors from within the bin, making it ideal for compost waste streams. Only available in Gray.

Nexus 13G with Graphic Holder Kit

Two graphic holder kit options are available for the Nexus 13G: a molded portrait sign (which attaches to Nexus 13G) and a wall-mounting sign.

The graphic holder kit helps create a clearly identifiable recycling point in any location as well as providing an easy and effective way of personalizing the product. Sign designs can be specified at point of order.

■ Nexus® 26G Recycling Bin

DESIGN FEATURES

- Bag Holder System.
- Pivoting Lid and Lid Stay.
- Key-lock (Confidential Paper Unit Only).
- Heavy Duty Wheels on Door.
- Drip Tray.
- Non-Marking Durapol™ Feet.
- Standard Recycling Graphic Options.

OPTIONAL EXTRAS

- Key-lock for Paper, Bottle, Can and Non-Recyclables Units. (Locks can be retro-fitted).
- Graphic Holder Kit.
- Reservoir Side Pod or Trash Side Pod.
- Pivoting Flap.
- Multi Bin Connector Kit.
- Personalization.

MATERIALS

Body, door, lid & openings: Duratec™ material.
Bag holder system: Durapol material.

DIMENSIONS

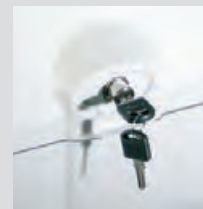

Capacity: 26 gallons
Height: 40"
Width: 21"
(width c/w one side pod: 27", width c/w two side pods: 32")
Depth: 16"
Weight: 27lbs

FEATURES

Bag Holder System

The bag holder band can be lifted up to allow light waste such as cans or plastic bottles to be removed without removing the door.

Secure Key-Lock for Confidential Paper Unit

A keyed push lock is situated at the front of the unit for ease of access. Can be provided as an optional extra on all other models.

Wheels are attached to the base of the door to aid easy emptying.

Easy and Safe to Empty

Lift the lid to its open position, then pivot open the door.

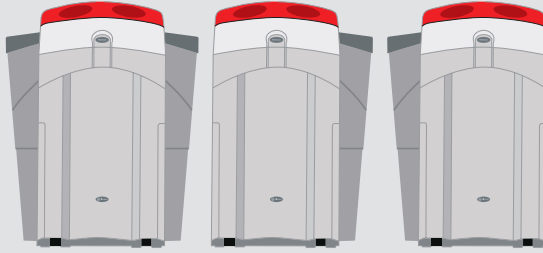

For lighter loads such as cans and plastic bottles, simply lift the bag holder band up and remove the bag (as shown). For heavier waste such as paper, the door can be removed from the unit and tilted onto the wheels attached to the base, ready for transporting the heavy waste a short distance to a collection area. With the door away from the unit, the bag can then be removed with minimal lifting.

Drip Tray

Positioned in the base of the door, the drip tray will collect any waste liquid deposited in the unit, preventing it from spilling out onto the floor. The drip tray can be easily removed for emptying and cleaning.

OPTIONAL EXTRAS

Side Pods

An additional 2 gallon side pod is available on one or both sides of the Nexus 26G unit. This can be either a reservoir for the collection of waste liquids from cans or bottles before depositing in the unit, a 2 gallon waste pod for the collection of small non-recyclable items, or an additional recycling bin for items such as batteries or bottle tops.

Nexus® 52G Dual Recycling Station

DESIGN FEATURES

- Supplied with 2 x 26 gallon rigid, zinc-coated steel liners.
- Robust, double-skinned construction.
- Two double-skinned, 3-point interlocking, slam-shut doors.
- Color-coded openings and graphics.
- Single-keyed twin door opening system.
- Extended opening ledges ensure trash always enters the liners.
- Anti fly-posting finish.
- Four poster frames.

OPTIONAL EXTRAS

- 2 x 26 gallon rigid Durapol™ liners.
- Personalization.

FIXING OPTIONS

- Ground fixing bolts.
- Concrete-in anchor (adjustable depth).
- Internal base weight.

MATERIALS

Body & door: Durapol material.
Rigid liners: Zinc-coated steel or Durapol material.

DIMENSIONS

Container volume: 2 x 36 gallons
Rigid liner capacity: 2 x 26 gallons
Height: 46"
Width: 46"
Depth: 23"
Weight: 112lbs (with rigid steel liners)
101lbs (with rigid Durapol liners)

FEATURES

Twin Door Opening System

With a twin door opening system and separate body compartments, Nexus 52G allows easy and quick access to both liners whilst minimizing cross-contamination between them.

Extended Opening Ledge

Minimizes cleaning inside the bin as the extended opening ledge ensures that trash will fall directly into the liner.

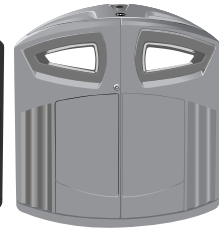

Secure 3-point Locking System

The unique lift and lock mechanism engages the door with the bin body at three separate points to provide a highly secure, vandal-resistant locking system. The door rises and self-returns to the locked position with a simple slam lock operation.

Water Safety Equipment

Protect life preserver rings with Glasdon life ring cabinets. Highly visible and resilient for a long service life, Glasdon ring buoy stations prevent theft or vandalism and are easy to position in any area where open water poses a danger such as harbors, beaches, lakes, docks, marinas, swimming pools and water treatment plants.

Guardian™ Life Ring Cabinet

DESIGN FEATURES

- Rope and buoy retention lip.
- Knuckle hinge and hinge rod.
- Toggle latch.
- Ropemaster™ Quick Release Rope Management System.
- Grab handle recess.
- Buoy- and rope-retention tabs.
- Usage inspection indicator.

OPTIONAL EXTRAS

- Inspection window.
- Operator inspection lid stay.
- Instruction Graphic.
- Personalization.
- 24" or 30" US Coast Guard Approved Life Ring with 100" Rope.
- Short angled post kit.
- Alarm bracket.

FIXING OPTIONS

- Wall mounting fixing kit.
- Rail mounting fixing kit.
- Concrete-in Extended post with fixings.
- Surface-mounted post with fixings.

MATERIAL

Durapol™ material.

DIMENSIONS

	Guardian 24	Guardian 30
Height:	36"	42"
Width:	30"	35"
Depth:	10"	10"
Weight:	20lbs	23lbs

COLORS

Red & White, Yellow & White (Guardian 30 only).

FEATURES

GUARDIAN 30
Holds one 30" Life Ring

GUARDIAN 24
Holds one 24" Life Ring

Ropemaster™

The Guardian life ring cabinet incorporates our purpose-designed Ropemaster, which allows the buoy and rope to be removed from the cabinet in one movement using only one hand. This quick release system could save valuable seconds during rescue attempts.

Buoy- and rope-retention tabs.

Grab Handle Recess

Indicator shows cabinet HAS NOT been opened.

Indicator shows cabinet HAS been opened.

Usage Indicator

The usage indicator allows for quick and easy inspection of the life ring cabinet, helping to minimize maintenance.

This inspection aid is easy to reset after the housing has been opened.

OPTIONAL EXTRAS

Life Rings

USCG Type IV approved life rings are an ideal buoyancy aid for use around any location where there is a drop to the water. The life rings are available in a 24" or 30" size and can be stored in the protective Guardian life ring cabinets.

NEW Angled Post

NEW Alarm Bracket

Please note: alarm is not included.

Nestor™ 106G Life Jacket Storage Box

DESIGN FEATURES

- Durapol™ Material body will not chip, rust or corrode.
- 'Life Jackets' decal clearly identifies the contents of the unit.
- Finished in a highly visible, bright red color.
- Slick exterior requires minimal maintenance.
- Can be stacked up to 3 boxes high to limit the amount of storage space required.
- Double-skinned construction ensures the lid does not open in windy conditions and helps keeps the contents dry.
- Knuckle hinge with GRP rod offers excellent strength and long life.
- Lid opens fully, leaving both hands free to store/decant water safety equipment.

- Angled lid maximizes storage space, prevents debris piling up on the box, and ensures excess water runs off the unit.
- Large front opening with low lip offers excellent access.
- Ample room for personalization and branding options.

MATERIAL

Body & Lid: Durapol™ material.

DIMENSIONS

Capacity: 106 gallons
Height: 38"
Width: 45"
Depth: 29"

COLOR

Red.

Slimline™ 42G Life Jacket Storage Box

DESIGN FEATURES

- 'Life Jackets' decal informs people of unit's contents.
- Molded-in drainage feature minimizes water ingress.
- Finished in a highly visible, bright red color.
- Can be lifted by one person for easy siting.
- Low access, smooth-edged opening allows easy removal of contents.
- Slick exterior requires minimal maintenance.
- Can be stored on its side when not in use.
- Exceptional vandal resistance.
- Ample room for personalization and branding option.

MATERIAL

Body & Lid: Durapol™ material.

DIMENSIONS

Capacity: 42 gallons
Height: 30"
Width: 33"
Depth: 16"

COLOR

Red.

Fixing Options Guide

Trash Cans - Fixing Options Guide

The majority of trash cans featured in this catalogue specify two capacities. The 'Container Volume' is the total capacity the container liner will hold with the contents measured heaped. The 'Liner Capacity' is the capacity the container liner will hold with the contents measured flat.

■ Glasdon High Performance Materials

Glasdon products are manufactured from high performance materials and undergo stringent quality checks to ensure durability and best value.

Wherever possible, we design our products using recycled and recyclable materials. We continually research new, sustainable technologies and manufacturing processes to allow us to achieve this, and invest in product innovation for the future. When designing new products, we consider sustainability throughout the product life cycle.

Throughout this brochure, reference is made to the following materials:

- **Armortec®** corrosion-resistant coating is specially formulated to extend the life of Glasdon metal products and components used externally.
- **Duraplus™** material is a polymer specially engineered to provide enhanced resilience, which gives improved recovery from impact.
- **Durapol™** material is a polymer formulated to withstand extremes of temperature. Durapol material will not chip or rust, is easy to clean and never needs painting.
- **Duratec™** material has been specifically created for use in internal environments. In addition to its attractive appearance it offers a blend of toughness, rigidity and dimensional stability.
- **Everwood™** material is a realistic timber grain polymer, which requires minimal maintenance. Everwood material is vandal- and weather-resistant and will not rot, warp or crack.
- **Vandalex®** material is an aluminum alloy engineered to produce a high modulus of elasticity, which offers increased impact absorption properties. Its anodized finish will not rust, is easy to clean and never needs painting.

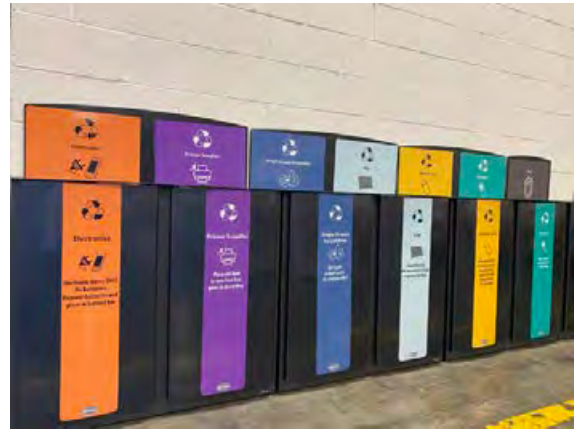

All Glasdon products manufactured from Durapol material, Duraplus material, Vandalex material and Stainless steel can be recycled at the end of their service life.
